Fixed Drain Without Overflow Chrome (DKFDC) \$185

CONSTRUCTION AND STANDARD FEATURES

- Elise SR is a semi-recessed model, which allows only the top 3" of the sink to rest on the vanity.
- Single-bowl design; 1.5" drain opening.
- Sink has no overflow. Requires a vessel-style drain kit without an overflow (in most areas). Check local codes.
- One-piece construction using Engineered Solid Stone (ESS) material, which is solid through and through.
- ESS is a mixture of ground natural materials and binding agents that are liquefied, poured and then hardened.
- This material is non-porous, stain-, mold- and mildew-resistant, making cleaning and maintenance easy.
- Approximately 65% of the material is organic, including minerals mined from the earth, making it "Green".
- Same material and color all the way through, with minor variations due to use of natural minerals.
- Five-Year Limited Residential Warranty.
- Shipping weight: 26 lbs.
