1. Clean Curves for Contemporary Tastes

MTI announces the addition of a strikingly modern free-standing tub to its Boutique Collection of design-savvy products for the bathroom. The Adrian exudes sophistication with lines, dramatic curves and bold simplicity. The Adrian has commanding convex ends, and inside, the vessel has backrests that are gently contoured to be supportive, comfortable and relaxing. The Adrian is made of MTI's own engineered solid-surface material, and the result is a nonporous, stain-resistant surface that looks and feels like natural stone. It comes in white or biscuit matte finish or in gloss finishes of white, biscuit, osprey or raven. They can be ordered as soaking tubs or custom fitted with a pedestal base and therapeutic air bath.

2. Biltmore Brings Runway Styles Home

This season, Biltmore® For Your Home offers a number of products that pay homage to the latest runway trends as well as the Vanderbilt family's legacy of style and hospitality. The casual functionality of Whitecraft's Blue Ridge dining table and chairs complements a mountain lodge or a western ranch. These casual indoor and outdoor furniture licensed collections meld the handcrafted quality and exquisite design expertise of Whitecraft, with the legendary sophistication of Biltmore.

3. BULBRITE's Eco-Friendly Halogen A19

BULBRITE, a leading manufacturer and supplier of innovative, energy-efficient light source solutions, has received a Platinum ADEX award for its 2012 EISA-compliant Halogen A19 lamp, an innovative, energy efficient lamp designed to comply with the 2012 Energy Independence and Security Act that is scheduled to take effect January 1st. The Halogen A19, which fits all standard and dimmable lighting fixtures, provides consumers with the benefits of higher efficiency and superior quality without having to convert to CFLs or LEDs. The lamp is available in four different styles, all of which use significantly less energy than standard incandescents. These styles can be used with chandeliers, outdoor and security lighting, table and floor lamps, ceiling pendants, recessed downlights and wall sconces. The Halogen A19 is available in clear and soft white finishes.
