reliance®

Reliance® tubs and sinks are the perfect solution when needs are more simple and modest. This selection includes a variety of tubs in the most popular shapes and sizes at an affordable price.

THE MATERIAL & PROCESS

Acrylic CXL®

Acrylic CXL® is composed of an 1/8” high-gloss continuous cross-linked cast acrylic sheet, reinforced with a thick layer of fiberglass, wood, and resin for strength, structural integrity, and increased insulation. The acrylic sheet is thermoformed with a mold. The back is then reinforced with a thick layer of fiberglass chop resin, reinforced with wood, and then hand-finished.

Reliance products are scratch- and stain-resistant and easy to clean. Reliance tubs are available as soakers, air baths, and whirlpools. They are available in the standard white or biscuit.

All Reliance products are handcrafted with pride in the USA.
